The 36th Annual Wine Tasting & Silent Auction Benefit

## 2016 SPONSORSHIP PACKET

*Supporting the UC Davis Affiliated Student-Run Clinics*

Video: [https://youtu.be/iiKDpL\\_aSJM](https://youtu.be/iiKDpL_aSJM)

Website: <https://wineandauction.ucdmc.ucdavis.edu>

Facebook: <https://www.facebook.com/events/517501118416036/>

Hello,

Thank you for your interest in sponsoring the Silent Auction and Wine Tasting Event to benefit our UC Davis-Affiliated Clinics. All donations are tax deductible, and we would be happy to provide a 501(c)(3) tax ID. This packet provides detailed information about the event, our Clinics, and how you can support our mission by becoming a sponsor. You can also reach us by email at [sawtb.publicrelations@gmail.com](mailto:sawtb.publicrelations@gmail.com)

As a sponsor, you will be supporting our nine entirely non-profit Clinics strive to provide free, culturally sensitive, and linguistically accessible healthcare for the uninsured and underserved populations in the Sacramento area. The Student-Run Clinics make over 8,000 patient contacts annually and provide care to thousands of Sacramento residents; for many community members, we represent the only possible source of health care besides the emergency room. Our Clinics are staffed by undergraduate, medical student, resident, and community physician volunteers from diverse backgrounds who graciously donate their time, energy, and knowledge to serve our patients. This year, our goal is to raise \$100,000 to be shared among the nine Student-Run Clinics to help pay for direct patient care costs such as medical supplies and medications. **This new goal will allow us to expand our care services to the communities that need them the most.**

The Silent Auction and Wine Tasting Benefit Event Information:

We cordially invite you to join us for an exciting evening of unique silent and live auction items, live music, friendly games, delectable food, and delicious wine. This year's theme is 'The Mystique of Medicine', a black tie masquerade ball. As a sponsor, you will receive complimentary tickets to attend. Again, all proceeds go towards supporting nine of the UC Davis-Affiliated Student-Run Clinics for the underserved populations of Sacramento.

Saturday, January 9, 2016  
5:30 PM to 10:00 PM  
4610 X Street, Sacramento, CA 95817  
Medical Education Building

For more information about the event, please visit our [Website](#), view our [Promotional Video](#), or visit our [Facebook Event Page](#).

## The 9 Student-Run Clinics You Will Support:

**Paul Hom Asian Clinic | *Commitment to the Asian community*** For the Asian and Pacific Islander community, the Paul Hom clinic provides primary and acute specialty care services. Founded in 1972, it is the oldest Asian health clinic in the United States. More than 50 medical and undergraduate students and more than 40 physicians volunteer at this clinic on an annual basis.

**Clínica Tepatí | *Primary care services for the Latino community*** Clínica Tepatí got its start in 1974, with a focus on serving downtown Sacramento's Hispanic population. Operating out of space donated by WellSpace Health, the clinic's Spanish translation services allow volunteers to communicate effectively and provide care for more than 1,000 uninsured patients of all ages each year.

**Imani Clinic | *Healing begins with faith*** Imani is a Swahili word meaning faith and it symbolizes the hope students wish to foster within the African-American community. The clinic was established in the Oak Park neighborhood of Sacramento in 1994 after students became concerned about the staggering and persistent morbidity and mortality rates among African-Americans from hypertension, heart disease, cancer and inadequate prenatal care.

**Joan Viteri Memorial Clinic | *Health care for high-risk populations*** Sharing space in a small building with Sacramento's Harm Reduction Services, the Joan Viteri clinic provides unbiased health care to intravenous drug users, sex workers and their families. The clinic works closely with Harm Reduction Services to emphasize prevention and education about infectious diseases and HIV testing, and to provide drug-related medical and social referrals.

**Bayanihan Clinic | *Focused on the needs of the Filipino community*** This clinic provides culturally and linguistically appropriate medical care to the underserved Filipino population in Sacramento County, particularly to World War II veterans and recent immigrants. It also has evolved into a center for culturally sensitive care to an extraordinarily diverse community.

**The Willow Clinic | *Serving people without homes*** Working out of the Salvation Army facility near downtown Sacramento, the clinic provides health care screening and services to a large, homeless population. The clinic's dedication to the homeless prompted the Salvation Army to include the clinic in its renovation plans, setting aside rooms solely for patient care and clinical operations.

**VN CARES | Reducing cancer-related health disparities in the Vietnamese community** Established as a sister clinic to the Paul Hom Asian clinic in 2001, the Vietnamese Cancer Awareness, Research and Education Society (VN CARES) provides culturally sensitive and linguistically appropriate cancer prevention screenings and education to the Sacramento Asian and Pacific Islander community on the first Sunday of each month.

**Knight's Landing One-Health Clinic | Community-based care to the rural, migrant farm worker community in Knights Landing** Established by Clínica Tepati students and Knights Landing residents, the clinic provides linguistically competent and culturally sensitive health care services to the rural underserved, particularly women, adolescents and farmworkers. In partnership with the UC Davis School of Veterinary Medicine, veterinary services are available at the clinic on the third Sunday of each month.

**Gender Health Clinic | Serving the transgender & larger queer communities** Operating within Sacramento's Gender Health Center, Gender Health Clinic helps to care for the LGBTQQI community, with a focus on transgender health. The clinic provides a safe, supportive environment at every stage of the coming out or transition process.
