

2017 – 2018 Sponsorship Packet

Dear Community Partner,

Thank you for supporting the Student-Run Clinics, either through direct donation or by sponsoring the 38th Annual Silent Auction and Wine Tasting Benefit. All donations are tax deductible, and we are happy to provide a 501c3 tax ID.

As a sponsor, you will be supporting seven non-profit Student-Run Clinics. We provide free, culturally sensitive, and linguistically accessible healthcare for the uninsured, underserved, and undocumented populations in the Sacramento area. The Student-Run Clinics make over 8,000 patient contacts annually and provide care to thousands of Sacramento residents. For many community members, we represent the only source of health care besides the emergency room. Our clinics are staffed by undergraduate, medical student, resident, and community physician volunteers from diverse backgrounds who graciously donate their time, energy, and knowledge to serve our patients. This year, our goal is to raise a minimum of \$100,000 to be shared among the Student-Run Clinics to purchase desperately needed supplies and medication for our patients. Please note that our clinics are able to offer services because of small grants and community donations from private donors and events, such as our annual Silent Auction Event. By helping us exceed our goal, we will expand and maintain our services to the communities that need them the most. Your contribution is directly allocated to the clinics. The gala is completely funded through ticket sales and auction items.

For your convenience, please fill out the form attached to this packet and return it in the prepaid envelope. Otherwise, you may visit our website to complete your donation online.

2017 – 2018 Sponsorship Packet

The Silent Auction and Wine Tasting Benefit Event Information:

We cordially invite you to join us for an exciting evening of unique silent and live auction items, live music, friendly games, delectable food, and delicious wine. This year's theme is a Winter's Ball styled ball. As a sponsor, you will receive complimentary tickets to attend. All proceeds will support the Student-Run clinics for the underserved populations of Sacramento, not to the gala.

Saturday, January 6, 2018 5:00 PM to 10:00 PM 4610 X Street,
Sacramento, CA 95817
Education Building

For more information about the event, please visit our website at

The 7 Student-Run Clinics and Satellite Sites You Will Be Supporting:

Paul Hom Asian Clinic | Commitment to the Asian community

The Paul Hom clinic provides primary and acute specialty care services. Founded in 1972, it is the oldest Asian health clinic in the United States. More than 50 medical and undergraduate students and more than 40 physicians volunteer at this clinic on an annual basis.

Clínica Tepati | Primary care services for the Latino community

Clínica Tepati *got its start in 1974*, with a focus on serving downtown Sacramento's Hispanic population. Operating out of space donated by WellSpace Health, the clinic's Spanish translation services allow volunteers to communicate effectively and provide care for more than 1,000 uninsured patients of all ages each year.

Imani Clinic | Healing begins with faith

Imani is a Swahili word meaning faith and it symbolizes the hope students wish to foster within the African-American community. The clinic was established in the Oak Park neighborhood of Sacramento in 1994 after students became concerned about the staggering and persistent morbidity and mortality rates among African-Americans from hypertension, heart disease, cancer and inadequate prenatal care.

Joan Viteri Memorial Clinic | Health care for high-risk populations

The Joan Viteri clinic provides unbiased health care to intravenous drug users, sex workers and their families. The clinic works closely with Harm Reduction Services to emphasize prevention and education about infectious diseases and HIV testing, and to provide drug-related medical and social referrals.

Imani Clinic • Knights Landing Clinic • Paul Hom Asian Clinic • VN CARES • Willow Clinic

2017 - 2018 Sponsorship Packet

$\textbf{\textit{Bayanihan}} \mid \textbf{Culturally sensitive care to an extraordinarily diverse community}$

Established in 2002, Bayanihan, Tagalog for "community," provides culturally and linguistically appropriate primary care and preventative services, particularly to World War II veterans and recent immigrants. Our clinic was first opened to serve the Filipino Veterano community and has now expanded to encompass the diverse communities of Sacramento.

Willow Clinic | Serving people without homes Working out of the Salvation Army facility near downtown Sacramento

The clinic provides health care screening and services to a large, homeless population. The clinic's dedication to the homeless prompted the Salvation Army to include the clinic in its renovation plans, setting aside rooms solely for patient care and clinical operations.

Partner Clinics:

Gender Clinic | Satellite of JVMC

Gender Clinic is a collaboration of the Gender Health Center (GHC) that provides free hormone therapy for Transgender Community members from more than 11 counties in northern CA. Using an interdisciplinary model; medical providers, student learners, social workers, attorneys and GHC staff come together to provide the Trans community with access to hormones, HIV/STI testing, PrEP for HIV prevention, social support and a safe, culturally humble and welcoming space.

VN CARES | Established as a sister clinic to the Paul Hom Asian Clinic

The Vietnamese Cancer Awareness Research and Education Society (VN CARES) provides culturally sensitive and linguistically appropriate cancer prevention screenings and education to the Sacramento Asian and Pacific Islander community on the first Sunday of each month.

HLUB Clinic | The HLUB Clinic is a satellite of Paul Hom

Formed to provide free culturally and linguistically appropriate primary health care services to the Hmong community. We screen for breast, cervical, colon and prostate cancers, in addition to Hepatitis B and primary care.

Knights Landing One-Health Clinic | Established by Clinica Tepati students and Knights Landing residents

This satellite clinic provides linguistically competent and culturally sensitive health care services to the rural underserved, particularly women, adolescents and farmworkers. In partnership with the UC Davis School of Veterinary Medicine, veterinary services are available at the clinic on the third Sunday of each month.
